Space-arm Beam Dual

The Space-arm Beam Dual provides the easiest adjustment of two screens for an ergonomic viewing behaviour.

The high-quality Space-Arm Beam Dual has a support beam on the back where the monitors are attached, so the monitors are always at an equal height.

Just like the Space-Arm Single and Dual, this monitor arm can be quickly and easily adjusted to the correct height, making this arm extremely suitable for flexible workplaces.

Easy setup for everyone.

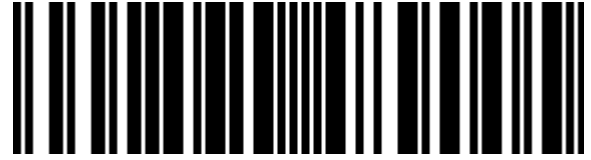

The Space monitor arms promise an easy adjustment of your screen(s) to your optimal ergonomic position. Just pan, tilt, rotate and lift your screen to the optimal viewing height, depth, and angle.
