20m Cat6 550 MHz Snagless Patch Cable - Grey

C2G 20m Cat6 550MHz Snagless Patch Cable networking cable Grey U/UTP (UTP):

For voice/data/video distribution, this cable it will handle bandwidth-intensive applications up to 550 MHz. Meets all Cat6 TIA/EIA-568-B-2.1, draft 9 standards, and drastically reduces both impedance and structural return loss (SRL) when compared to standard 100 MHz wire. Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point.

Constructed from high quality cable and a shortened body plug, this design minimizes Near-End Crosstalk (NEXT) levels. The snagless, snagless boot prevents unwanted cable snags during installation and provides extra strain relief. Available in a variety of Colours to easily colour-code your network installation.
