

121147 Cat.6A RJ45 Shielded Plug, 100pcs/pack

Product Images

Short Description

1. 8P8C cable mount modular plug
2. Suitable for Cat6 and Cat6a Ethernet Applications
3. Max. wire OD: 1.1mm
4. For round cable
5. Shielded

6. Gold Plated Connectors for high signal quality
7. RoHS compliant
8. Selling unit: 100pcs/Pack

Description

Equip 121147 RJ45 Shielded Plug is a type of connector used in networking and telecommunications for Ethernet cables.

It offers higher data transfer rates and better performance compared to Cat 6. Cat 6A supports data rates of up to 10 Gbps (Gigabits per second) over a distance of up to 100 meters, making it suitable for high-speed networking applications.

RJ45 plug has additional shielding or insulation to protect the signal from electromagnetic interference (EMI) and radio frequency interference (RFI). This shielding helps maintain signal integrity and reduce the risk of data transmission errors in environments with a lot of electrical interference.

A Cat6A RJ45 Shielded Plug is a network connector designed for high-speed Ethernet connections, offering enhanced performance and protection against electromagnetic interference, making it suitable for demanding networking environments where data integrity and reliability are essential.

Additional Information

Approval and compliance	CE, RoHS, REACH
Category	Cat.6A
Tool Free	No
Product weight (kg)	0.00248
Color	Transparent
EAN	4015867233863
Model Number	121147
Package Contents	121147
Dimensions (W x D x H)	22.45 x 11.68 x 10.77 mm
