

n-Abler Range and n-Abler Trackball

Part code: M-NAJ (range) and M-NAT (trackball)
Mouse alternatives for users with limited hand control

Description

The **n-ABLER Range** is the most adaptable mouse alternative on the market specifically designed to address the needs of computer users with limited hand control, motor skill difficulties, poor hand-eye co-ordination, lack of manual dexterity and involuntary muscle spasms.

The **n-ABLER Range** is especially suitable for improving access for children and young people with special educational needs, learning difficulties, for those whose work entails long periods of computer use and for older people and others with movement impairment. Both the Joystick and Trackball require only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation of objects on the computer screen.

The **n-ABLER Range** emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue, requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for 'left-handed' operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained.

Controllable audio and visual alerts indicate selection or change of function. Single button activation of double-click and drag-lock functions are provided.

A facility for programming a range of orientation together with screw holes for bracket mounting means that the unit can be used in almost any position.

Features

- Rugged construction and ergonomic design.
 - Large footprint for maximum stability.
 - Symmetrical design for use with either hand.
 - Unit can be orientated in 3 different positions for flexibility of access
 - Colour coded buttons mounted sub-flush to prevent accidental activation.
 - Double click and latching drag lock buttons
 - X-Y axis and Scroll button for up/down or left/right only cursor movements and scrolling facility.
 - Audible (switchable to mute) and visual warnings indicating selection or change of function.
 - Cursor Speed Control
 - Alternative grips for Joystick; T-Bar and Softball
 - Easy 'plug and play' installation (no additional drivers required)
 - Auto detecting PS2 and USB protocols
-
- **W:** 5.08" (12.9 cm) **D:** 9.17" (23.3 cm) **H:** 2.8" (7.2 cm)
 - **Weight (base unit only):** 2.43 lb (1.1 kg)
 - **Diameter of standard joystick top:** 0.71" (1.8 cm)
 - **Diameter of ball joystick top:** 2.4" (6.2 cm)
 - **Width of T-bar joystick top:** 2.3" (5.9 cm)
 - **Depth (front to back) of T-bar joystick top:** 0.67" (1.7 cm)
 - **Diameter of buttons:** 0.71" (1.8 cm)
 - **Cord length:** 80.0" (2.0 m)
 - **Interface:** USB or PS/2 (USB to PS/2 adapter included)
 To switches: 2 x 3.5 mm Mini-phono Jack plugs
 - **Compatibility:** PC and Mac
 - **Warranty:** 2 years
