#### Overview

The AlertWerks passive infrared Motion Detector Sensor detects the presence of movement. It is specially designed to be integrated with AlertWerks hubs.

Mount the sensor on a wall or ceiling. To prevent false alarms, the sensor characterizes the optimum detection angle. It's compatible with EME102A, EME108A, EME134A, and EME1X8. You can link up to ten motion detectors together, plugged into a single RJ-45 sensor port.

#### **Features**

- Wall/ceiling mounted design.
- Weatherproof.
- Surface-mount technology.
- High RFI immunity.
- Link up to ten motion detector sensors on a single port.
