

VivoCam L2+ Series

VivoCam L2+ Managed PoE Switch

Managing IP Surveillance • Managed L2+ Gigabit PoE Switch

The VivoCam L2+ series is the Layer 2 Plus managed PoE switch with IP surveillance management functions. This switch is not only a standard Layer 2 Plus managed PoE switch, but also able to set up and configure VIVOTEK IP cameras, Video servers and allows users to find all VIVOTEK devices and deploy a surveillance network system automatically.

The VivoCam L2+ series, also features Graphic View, such as Topology/Map view for controlling and understanding network structure and device situation, and Google Map integration to

view system situation status for outdoor applications. It not only features surveillance network environment set up functions, but troubleshooting and traffic monitoring functions also help users to clarify and troubleshoot any connection or device issue. In addition, users can also import and export their VIVOTEK IP camera/Video server configuration files, and batch VIVOTEK cameras firmware upgrade through the VivoCam L2+ Managed PoE switch Web UI. With all of these features and more, the VivoCam L2+ series, is the best PoE solution to install and manage your VIVOTEK surveillance devices.

Key Features

Managing IP Surveillance

- The Root VivoCam Will Auto-Sync With All Sub VivoCam Switches
- Auto Discovery and Classification of Network Devices
- Batch Camera Configuration-File Import & Export
- Batch Camera Network/Login Configuration
- Auto Generated Surveillance Topology View
- Easy Tag VLAN Configuration In Topology View
- Smart Device-Management In Topology View
- PoE On/Off Control In Topology View
- Display IP Camera Live Stream in Topology View, Floor View and Google Map View

Managed Layer 2 Plus PoE Switch

- Supports L2+ Managed Features
- Supports DHCP Server
- Supports IPv4/IPv6 L3 Static Route
- Supports IEEE802.1Q VLAN (up to 4096), Double Tag (Q-in-Q)
- Supports IEEE802.1v Protocol VLAN and MAC-based VLAN
- Supports 802.1d (STP), 802.1w (RSTP) and 802.1s (MSTP)
- Supports LACP and Static Link Aggregation
- Supports SNMP v1/v2c/v3 for Management
- Supports HTTPs/SSL/SSHv1&v2 for Secured Connection
- Supports Dual Image for Switch Firmware Backup
- Supports Diagnostics for Connection and Cable Status

Feature Highlight - Managing IP Surveillance

Auto Discovery

AW-GEV L2+ Series can automatically discover any VIVOTEK's devices such as network cameras, video servers, CMS and NVR with a simple click of mouse.

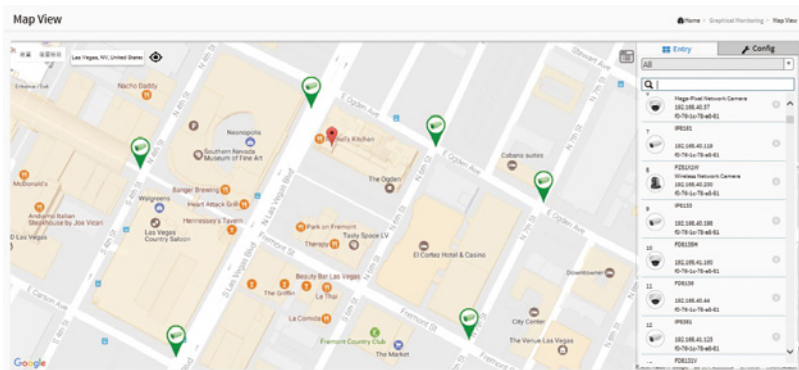

Graphic View - Topology View

Auto-generated Topology View allows administrators to quickly view and export a complete network topology in SVG/PNG/PDF format for easier inspection and planning.

Graphic View - Floor View

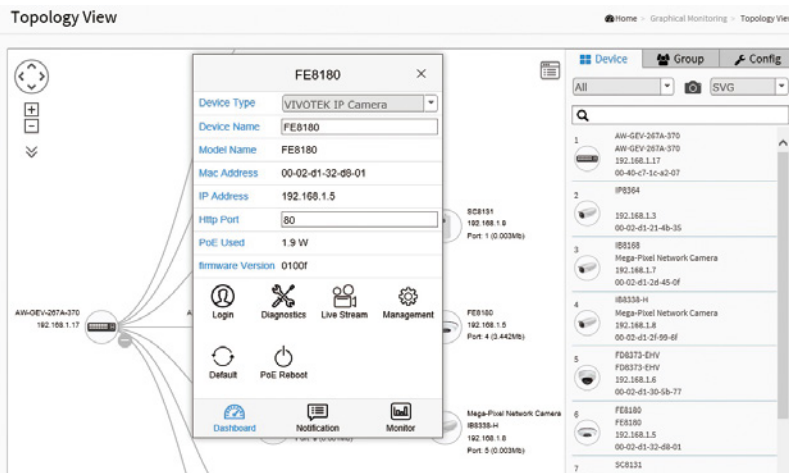

Upload custom floor images. Floor View allows for quick location of deployed surveillance devices and for export of this view in SVG/PNG/PDF format for easier inspection and planning.

Graphic View - Google Map

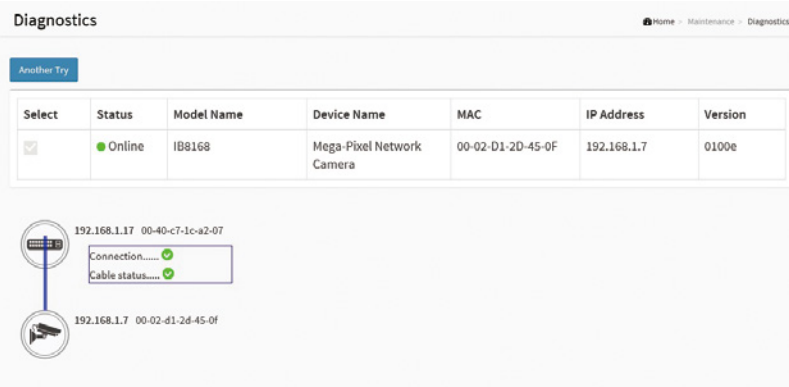

Locate surveillance devices on Google map to simplify multi-site management of any large scale deployments.

Feature Highlight - Managing IP Surveillance

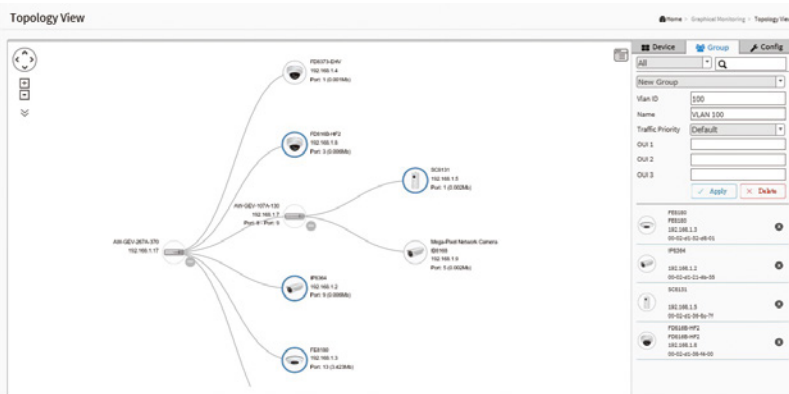

Device Management

Easy network configuration, open camera Web UI, diagnose camera connection and cable status, display camera live stream, change camera network setting, restore default, PoE consumption, and PoE on/off control.

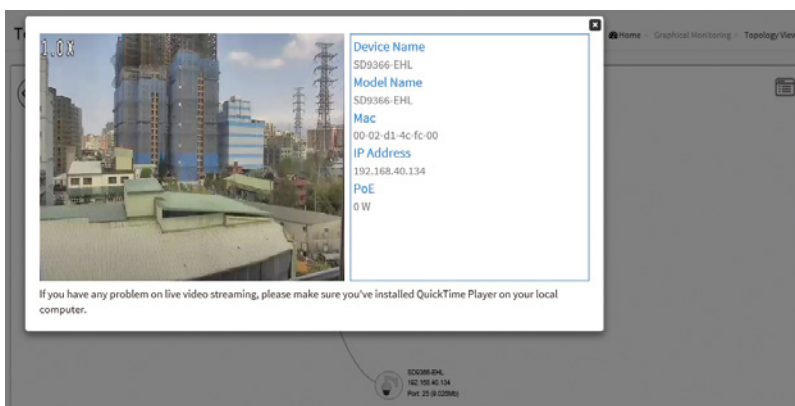

Device Status

Device status page shows the real-time verification result of each connection between switch port and device.

VLAN Setting

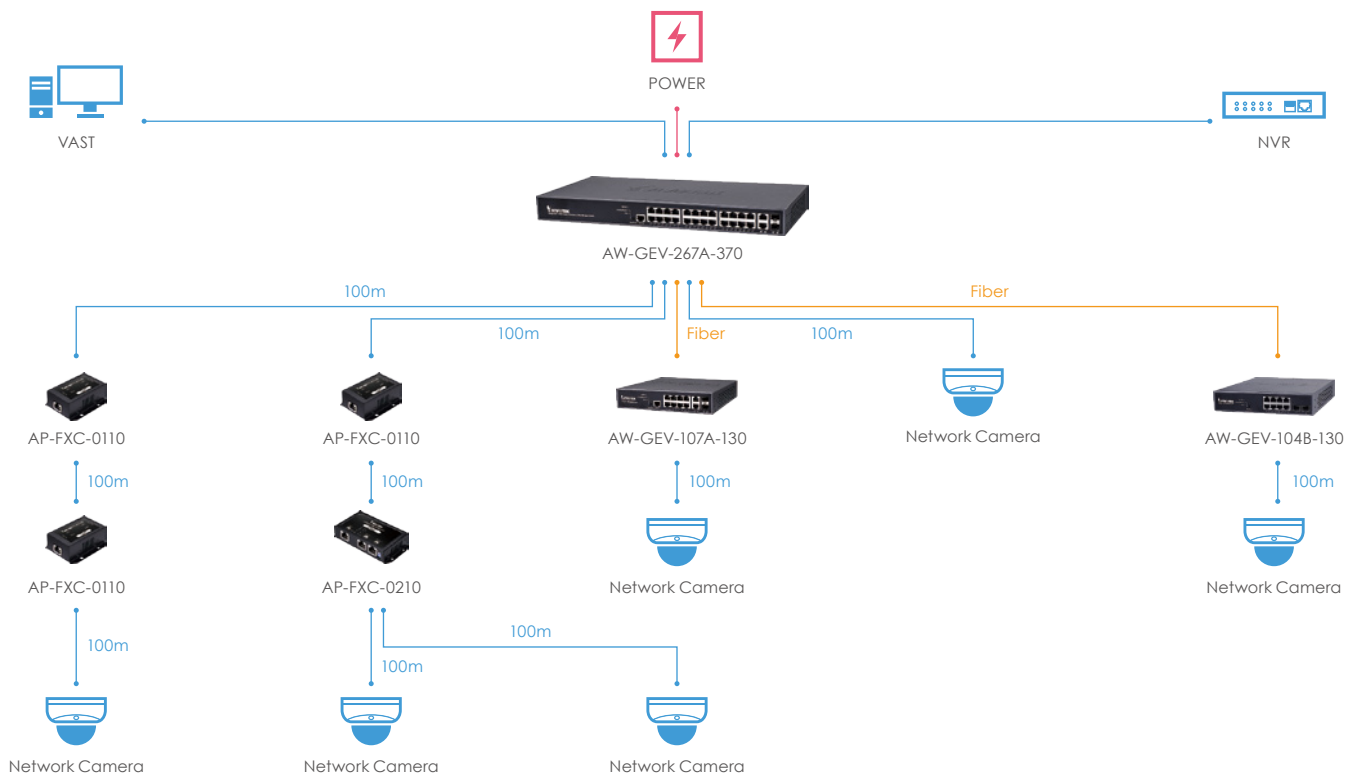

Hierarchical topology view allows administrators to easily build a VLAN.

Live Stream

Display live streaming camera window in Topology View, Floor View and Google Map View.
