

Ergonomic Excellence for Document-Intensive Workflows

Why You Should Align Your Screen and Your Reference Materials

standivarius
workplace ergonomics

The Challenge

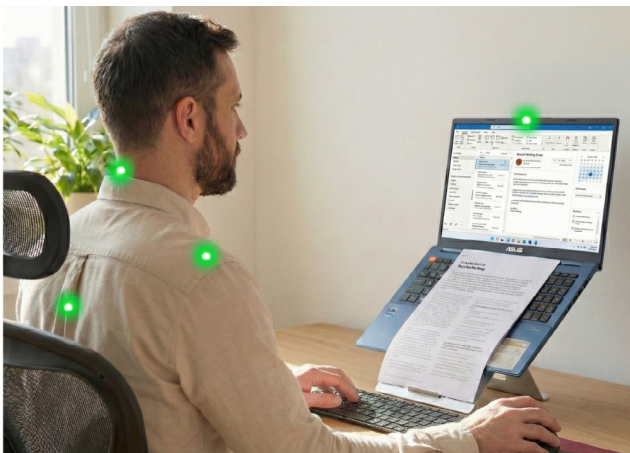

Referencing physical documents while typing on a laptop frequently causes repetitive neck twisting and downward looking, leading to rapid muscular fatigue:

Cervical Strain: Looking back and forth between a desk-level document and a screen causes repetitive neck stress.

Eye Fatigue: Constant refocusing between different distances and desk lighting levels strains vision.

Hunched Posture: Low laptop screens encourage the user to slump forward over the desk.

The Solution: Oryx evo D Laptop Stand

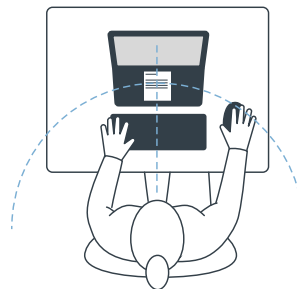

The Oryx evo D elevates the laptop screen to eye level while seamlessly integrating an inline document holder, ensuring all work materials remain in a single, ergonomic viewing plane:

Inline Viewing: Keeps documents directly between the keyboard and screen to eliminate neck twisting.

Posture Correction: Raises the laptop to an optimal height, preventing slouching and spinal compression.

Workspace Optimization: Consolidates equipment to reduce physical desk clutter.

Product Highlights

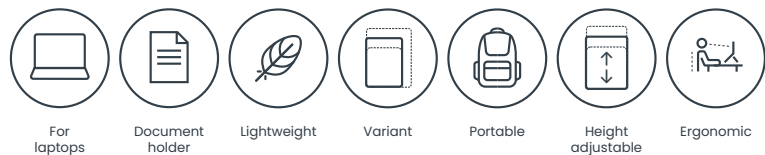

Integrated Inline Document Holder: Keeps physical reference materials directly between the keyboard and screen, preventing painful and repetitive neck twisting.

Precision Height Adjustability: Offers multiple elevation settings to align the laptop display perfectly with the user's natural eye level, preventing "tech neck"..

Ultra-Thin Foldable Profile: Collapses down to a completely flat shape, making it incredibly easy to slip into a laptop bag for hybrid working environments.

Minimalist Design: Engineered with a sleek, open-frame aesthetic to complement modern, ultra-thin hardware without unnecessary bulk.

Robust Weight Capacity: Engineered with highly durable materials to securely support a wide range of modern laptops without wobbling during heavy typing.

Technical specifications

Laptop height settings	max. 55 degrees, 4 adjustments
Suits laptops	10-17 inch screen, up to 4 kg
Footprint on table	min. 195 x 211 mm
Size when folded	307 x 210 x 2.5 mm
Weight	210 g
Colour	natural aluminium
Product code	ST104111
