

## Filex Galaxy Modular Single

The Filex Galaxy Modular Single is suitable for 1 screen. This monitor arm is fully modular and can be expanded to multiple screens.

Using a monitor arm is much more comfortable and increases productivity by 10% compared to a wrong position.

Multiple studies have found that using two or more screens can substantially improve performance (University of Utah, 2008, Colvin et al., 2004, Czerwinski et al., 2003).

Placing the monitor too low can increase neck strain. Placing it too high (the top should not be above eye height) can also cause problems. Even more important may be the adjustability of the depth, allowing for optimal viewing distance all the time. This helps you absorb information and causes the least eye strain. Rather than work in the wrong position, this optimal monitor position is much more comfortable and increases productivity by 10% (Sommerich et al., 1998).

### The most modular monitor arm from BakkerElkhuizen

An ergonomic workspace promotes comfort and productivity of computer workers. Monitor arms are an important element of this process, creating more room on your workspace and improving your work posture. The Premium Office Dual Modular is modular, so that your desired configuration can be realized.. It is important to use a monitor arm: rather than work in the wrong position, an optimal monitor position is much more comfortable and increases productivity by 10% (Sommerich et al., 1998).

## Advantages of the Filex Galaxy Modular Single

### Smart cable management

Smart cable control is constructed into the screen arm. You can now disguise the cables at the same time as enhancing movement!

### Customisable

Thanks to the patented bendy enlargement set up you could pick the intensity and height. Comes with a clamp and bolt-through.

### Unique

The slide device will increase the putting options.

### Gas spring arm

The Filex Galaxy can flip a 180 degrees at any hinge. The new strong, patented gas spring arm can assist among 2 and 12 kg.

### Pivotable

The Vesa head has a quick-launch mechanism and the screen may be absolutely tilted horizontally, switching from portrait to panorama mode.

### Durable

The Premium Office Monitor arm is 100% recyclable and is constructed from long lasting materials.

## Knowledge Center

An ergonomic workstation promotes the comfort and productivity of DSE workers. It is easy to create the ideal workstation with a few minor adjustments. Monitor arms provide more space for your workstation and improve your posture.

In addition, the height and distance of monitor arms can be adjusted easily. Moreover, more and more people are working...
