One Hub. Six More Ports.

The USB-C Fusion MAX 6-in-1 Hub features six ports to extend the connectivity of USB-C enabled phones, tablets, and laptops. Plug in your device to the HDMI port to mirror or extend your screen in Ultra HD, or use the VGA connection for up to 1080p Full HD support. Connect to the USB-C port for up to 100W power delivery pass-thru, or to quickly transfer multimedia files at 5Gbps [USB 3.1 Gen 1]. The Fusion's two USB-A ports [USB3.0] are perfect for popular USB peripherals including keyboards, mice and scanners, and they also support up to 5Gbps data transfer speeds. Ensure your Internet connection is reliable for video meetings with its RJ-45 Gigabit Ethernet port. The Fusion Hub also features an extended USB-C cable that's convenient to use with all types of USB-C devices.

4K [60Hz] Displays and Speedy File Transfers

Extend your Ultra HD screen space with the Fusion. Connect your USB-C devices to the HDMI or VGA ports to mirror or extend external displays, including TVs, monitors or projectors. The Fusion USB-C [USB 3.1 Gen 1] and USB-A [USB 3.0] ports' 5Gbps data transfer speeds are 10 times faster than the USB 2.0 standard, enabling you to transfer and access multimedia content such as video files, albums, and podcasts in seconds.

A Portable Hub that Works Where You Do

The Fusion Hub's small size is especially convenient on small desks or desks with limited available space. Its polished space grey exterior complements modern desks and modern devices, including contemporary iPads and MacBook Pros, or any Windows/Android phones, tablets and laptops. ALOGIC's engineers have designed a slim and lightweight hub that's perfect for staying connected between the office, home, and on the road.

EMI Shielding

Like all ALOGIC products, the hub has been designed and engineered for best in class performance. To enable this the hub has end to end EMI shielding to eliminate all interference from Wi-Fi and other wireless transmissions.

User Interface

Input	USB-C	
Output	1 x HDMI 4K@60Hz 1 x VGA 1080p 1 x USB-C 3.1 Gen 1 (5Gbps) with Power Delivery 100W	2 x USB-A 3.1 (5Gbps) with BC 1.2 charging 1 x RJ45 Gigabit Ethernet

Data Rate

USB 3.1 (Gen 1) data rate of up to 5Gbps
Gigabit Ethernet

Power

Supports up to 100W Power Delivery via USB-C Port
Supports BC1.2 on one of the USB-A Ports

Physical Characteristics

Product Dimensions	106(L) x 51(W) x 14(H) mm, Cable length - 230mm
Colour	Space Grey and Black
Weight	80g
Material	ABS Housing

Resolution

HDMI	4K @60Hz
VGA	1920 x 1080@60Hz

Device Compatibility

Compatible with all computers with a USB-C or Thunderbolt 3/4 port which supports video output

Package Includes

1 x Fusion MAX USB-C 6-in-1 Hub
1 x User's Manual

Warranty

2 Year
