The ALOGIC Fusion 8K DisplayPort to DisplayPort Cable allows you to connect any DisplayPort enabled source device, such as a laptop or PC etc to a compatible display, like a TV, monitor or projector. The cable is compliant with the latest DisplayPort V1.4 specification, which supports up to 8K@60Hz resolution and a host of new capabilities that will unlock the true potential of your compatible devices now and into the future.

Fusion Quality

The ALOGIC Fusion range is crafted from superior materials and specially designed to guarantee a longer lifespan. The cable core is strengthened with synthetic fibre and reinforced with a fabric jacket to provide increased protection against all types of wear and tear. The cable head is also constructed from thermoplastic for maximum strain relief and finished with an ABS housing for additional durability.

8K Display Clarity

The Fusion cable supports 8K[60Hz] external displays, and a maximum data transfer rate of 32Gbps. Add High Dynamic Range [HDR], 32 Uncompressed Digital Audio Channels, and Multi-Stream Transport support to the mix, and it's the perfect cable for smoother streaming, virtual reality fun, marathon gaming sessions, and memorable movie nights across all your enabled displays [including TVs, computer monitors and projector screens]. Think of the Fusion as the go-to to help enhance all your audio-visual experiences.

Built Tough. Feels Supple.

ALOGIC's engineers have purpose-built the cables in the Fusion series to outlive your digital devices. The head is furnished with thermoplastic and metal alloy, which protects the cable body from everyday stress and strains. The cable's interior wires are fortified by synthetic fibre and clothed in a supple double-braided nylon jacket made for maximum durability.

DisplayPort 1.4 Performance

DisplayPort Cable unlocks the immersive experience to meet DisplayPort V1.4 specifications. The cable provides super sharp contrast and improved colour with support of a maximum resolution of 8K@60Hz (7680x4320). This allows seamless video and audio for streaming, gaming, and virtual reality with backward compatible to DisplayPort V1.1a without the need other additional equipment. It also supports all other DisplayPort V1.4 features such as Audio Copy Protection, Improved Full HD 3D Stereoscopic display (Mono, Stereo, 3D Glass), High definition Audio formats and Data transfer rate of 32.4Gbps for increased display resolution.

User Interface

Input	DisplayPort (Male)
Output	DisplayPort (Male)

Package Includes

- 1 x Fusion 8K DisplayPort Cable
- 1 x User's Manual

Resolution

Supports 8K@60Hz (7680x4320), 4K@120Hz (3840x2160),
Up to 32.4Gbps bandwidth

Device Compatibility

Compatible with DisplayPort enabled devices

Warranty

2 Year
