

Lite[®] by Hypertec[®] INT Edition

Slim Laptop Stand with Document Holder - Designed for Devices with a Restricted Opening Angle or Internal

Light and Portable

Ideal for use with external keyboards and mice, the Lite[®] by Hypertec[®] INT Edition helps create an ergonomic and portable office space. Utilising minimal desk space, the space-saving structure folds flat to 360x 206mm.

Weighing as little as 280g and folding flat to 2.5mm, the Lite[®] by Hypertec INT Edition slides into any laptop bag. Sturdy and stable the Lite[®] INT Edition has been especially developed and manufactured for devices with a restricted opening angle or internal hinge such as the MacBook and MacBook Pro, providing a stable and height adjustable platform.

Ergonomic, Versatile Design

Providing 5 ergonomic viewing position for your device, The Lite[®] by Hypertec INT Edition creates a great mobile ergonomic workplace wherever you are.
